

Champlain Valley National Heritage Partnership

2008 Implementation Grant

Smart Phones and Storytelling

Project Summary

The Ethan Allen Homestead utilized a 2008 Champlain Valley National Heritage Partnership Implementation Grant to develop a video telling the story of Ethan Allen’s Green Mountain Boys taking the Fort at Crown Point and “liberating” 111 cannons that would be essential to the colonies’ efforts at the beginning of the Revolutionary War. The video—available in French and English—was designed to be used on smartphones.
