Project Summary

Burlington City Arts received a \$10,000 grant from the CVNHP/LCBP to edit and produce recordings of “From the New World,” “The Making of From the New World” and the “Queen City Radio Hour”—programs developed for the Lake Champlain Quadricentennial.

Burlington City Arts also produced a commemorative book on the activities during the 13-day International Waterfront Festival. The four-color bound book includes insights and reflections from festival director Jay Craven, the French Consulate in Boston, Abenaki scholar Fred Wiseman, broadcaster Fran Stoddard, the Quebec Minister of Culture, Franco-American actress Abby Paige, Abenaki folklorist Marge Bruchac, and Franco-American businessman Ernie Pomerleau.

The DVDs and book were packaged together in a commemorative set for distribution to state archives, UVM special collections, and to select public libraries along the Lake Champlain Basin in Chittenden, Franklin and Addison Counties

Cover of the commemorative book.
