Iron to Iron Bicycle Loop

Route Description

This hilly ride for railroad and mining history buffs begins at the Iron Center in Port Henry. The former site of Witherbee Sherman & Co's mine headquarters houses a local mining museum and outdoor train exhibit; foundations of a traveling crane and the Lake Champlain & Moriah railroad bed remain. The LC&M was the spur line which brought iron ore from Mineville to Lake Champlain. On your way out of Port Henry you'll pass under two LC&M bridges, through plateau farmlands, old orchards and woodlots into the historic settlement of Ironville and the Penfield Homestead Museum. Enjoy indoor & outdoor exhibits on early iron mining and refining processes at the home of the first electromagnet.

Safety Guidelines

Motorists and bicyclists share scenic roads. Use caution on narrow, winding or unpaved roadway. Follow traffic laws and ride safely. Bicycles are vehicles by law and have the right to use public roads. You are responsible for operating your bicycle under all conditions.
