

## 2024 Champlain-Adirondack Biosphere Projects

Organization	Project Name	Project Synopsis	Grant Amount
Bixby Library	<i>What Are You Looking At?: Eco-Hands Across the Biosphere</i>	Bixby Library will partner with libraries and schools across the lake to develop kits and programs that enlighten and empower students and their educators as stewards of the Biosphere.	\$9,000
Lake Champlain Maritime Museum	Iron and Metal Arts in the Champlain-Adirondack Biosphere	Lake Champlain Maritime Museum will host two weeks of youth summer camps focused on the history and craft of mining and metal arts in the Champlain-Adirondack Biosphere.	\$9,000
Wildlands Network (WN) on behalf of CABN	Future Forest Reimagined (FFR) through Man and the Biosphere Reserves	Protect and restore old forests, and plan for ecologically managed forests in the Champlain Adirondack Bioregion (CABR) and 8 Eastern Canada Bioregions through international exchange and indigenous participation.	\$40,000
Lake Champlain Maritime Museum	Champlain-Adirondack Biosphere Exhibit and Programs	A year of onsite and digital programming connecting the public with the environmental resources of the Champlain-Adirondack biosphere by creating experiences that result in personal connections and long-term stewardship.	\$40,000
Paul Smith's College - Adirondack Watershed Institute	A CAB Fiber Lab: Mapping Community Values in the Biosphere	CAB Fiber Lab celebrates human values and voices in the CAB and strengthens the connection between people and cultural and natural heritage resources through a collaborative fiber-arts mapping experience.	\$39,534
The Wild Center	Empowering Youth for Climate Action in the Champlain-Adirondack Biosphere Network	The Empowering Youth Project will increase youth climate education through summits and leadership training in climate science, biodiversity, sustainability, and solutions in the CABN and Frontenac Arch Biosphere	\$40,000
Cornell Cooperative Extension of Essex County	Showcasing Sustainable Agritourism in the Champlain-Adirondack Biosphere	Adirondack Harvest will grow sustainable international agritourism opportunities through storytelling and outreach in the Champlain-Adirondack Biosphere.	\$39,600
Folklife Center at Crandall Public Library	Local Solutions in the Champlain-Adirondack Biosphere	Local Solutions in the Champlain-Adirondack Biosphere is an original video documentary series that will share stories of local residents who are doing their part for a sustainable future.	\$40,000
Bixby Memorial Free Library	Bixby Archives "Biosphere Lens" Finding Aids and Accessibility Intern	Use a "biosphere lens" to bring Bixby's extensive archives to life by engaging an intern to expand finding aids and make them digitally accessible for researchers and the public	\$9,000
Paul Smith's College Adirondack Watershed Institute	Celebrating the Heritage of the CABN during Adirondack Water Week	This project celebrates freshwater heritage in the CABN and elevates the voices of community members that are making contributions to protecting clean water in New York and Vermont.	\$9,000
